Customer Order Attribute Extension for Magento 2

1. Installation

- Get customer order attribute extension from Milople Magento 2 extension store.
- Unzip the extension and copy the folder structure in your store.
- Create a directory called "code" if you are installing the first extension inside the "app" directory then create the "Milople" directory inside the code and paste the folder structure from the module to that directory.

So, your folder structure will be like following:

app/code/Milople

a. Activation

Open a command line in folder root of Magento and run the following commands via SSH using putty or others,

```
php bin/magento module:enable Milople_All
php bin/magento module:enable Milople_OrderCustomerAttribute
php bin/magento setup:upgrade
```

2. Uninstallation and urgent deactivation

a. Deactivate module using command

Open the command line in the root of Magento and run the following commands via SSH using putty or
b. Deactivate module using config.php

Open the following file: app/etc/config.php

Replace 1 with 0 value in front of the following lines.

'Milople_All' => 0
