Recurring & Subscription Payments M2

Installation

• Get Recurring & Subscription Payments extension from Milople Magento 2 extension store
• Unzip the extension and copy the folder structure in your store.
• Create directory called "code" if you are installing first extension inside the "app" directory then create "Milople" directory inside the code and paste the folder structure from module to that directory
• So, your folder structure will be like following

app/code/Milople

Compatibility with Stripe

If you wish to make get compatibility with Stripe, you should follow the following steps:
• Navigate to https://www.milople.com/magento-2-extensions/stripe-payments-subscription-m2.html and get our Stripe payments extension which is available for a price of $0.
• Move Stripe into the Milople namespace on your server where you have Recurringandsubscriptionpayments extension. Stripe and Recurringandsubscriptionpayments extensions should both be present in the Milople namespace.
• Once done that, run php/magento setup:upgrade command in your root magento 2 directory.
• Also perform composer require stripe/stripe-php command in your root magento directory.
• You can now use stripe as a payment gateway for your subscription orders.
