

Shop By Brand for Magento 2

User Guide

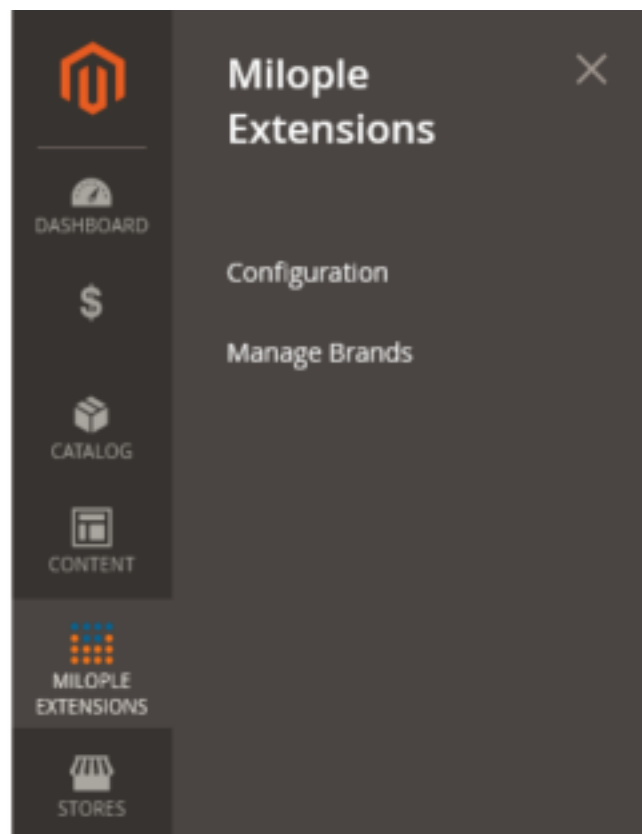

1. Introduction

Looking forward to offering more convenience to your shoppers? Facilitate shoppers to easily reach their most favoured brands using **Magento 2 Shop By Brand** extension. The module allows displaying similar brand products collectively in your store and provides an enhanced shopping experience to the customers.

2. Extension Configuration

Once you are done with downloading the extension file, go to the Magento backend and configure the extension. Check the below screenshot.

For configuring the extension, login to Magento 2 admin panel, navigate to **Milople Extensions > Manage Brands**. Here, you will find various configurations to manage the extension.

Here, you need to enter the serial key that you will find from the **“My Account”** dashboard. Enter the serial key provided to activate the module.

The status functionality can enable or disable the Shop by Brand extension from here.

3. General Configuration

In General Configuration settings, you will find the following:
The store admin needs to enter the brand route that they want to add the brands page URL. On leaving it empty, the default (brands) is applied.

Enter the brand label that you want to display or can even leave it as default. The admin can set to display brand link either at the top or footer on the frontend.

Here, the image displays a brand link at the top on the frontend.

You can also display brand link at the footer of the page on the frontend.

Then, you can choose the position where you want to display the brand link in menu.

The admin can set to display brands and choose the elements to showcase in the menu. You can select from the following options:

- Logo Only: Displays only the brand logo in the menu.
- Label Only: Showcases only the brand label in the menu.
- Logo and Label Both: Shows both brand logo and label.

By default, it displays logo and label both.

After that, you can set the maximum number of brands that you want to show in the menu.

The admin can even select to display brands without products on the menu.

Select the position where you want to display the brand link in menu

Display Brand Link in Menu [[global]] Yes

Display Brands in Menu [[global]] Yes

Choose YES to display brands in menu

Select the elements that you want to display in the menu

Enter the maximum number of brands that is to be displayed in the menu

Select YES to display brands without products on menu

The image showcases brands without products on the menu.

The admin can set a brand slider on either home page, category page, or product page.

Here, you can select if you want to show the brand slider.

Specify the time interval (in seconds) for autoplay delay. On leaving it empty, it will be considered as default for 5 seconds.

The image shows a configuration interface for a brand slider. It includes five settings, each with a dropdown menu and an explanatory callout:

- Display Brand Slider on Home Page**: Set to "Yes". Callout: "Set YES to show brand slider on home page".
- Display Brand Slider on Category Page**: Set to "Yes". Callout: "Choose YES to display brand slider on category page".
- Display Brand Slider on Product Page**: Set to "Yes". Callout: "Choose YES to show brand slider on product page".
- Autoplay Brand Slider**: Set to "Yes". Callout: "Select YES if you want to autoplay brand slider".
- Autoplay Delay**: Set to "2". Callout: "Set the time interval (in seconds) for autoplay delay". Below the input field, it says "Enter in seconds, default is 5 seconds. leave empty for default config."

Here, the widget showcases brand image slider on home page, category page or product page on the frontend as per the set configuration.

Details Reviews (2)

The sporty Joust Duffel Bag can't be beat - not in the gym, not on the luggage carousel, not anywhere. Big enough to hold a basketball or soccer ball and some sneakers with plenty of room to spare, it's ideal for athletes with places to go.

- Dual top handles.
- Adjustable shoulder strap.
- Full-length zipper.
- 5.29" x 18.11" x 11".
